Actual specifications may vary from models shown.

BLIND SPOT MONITORING & REAR CROSS PATH DETECTION

Maintain a safety perimeter with the help of these sensor systems. Chimes and illuminated icons notify you when side or rear blind spots are encroached.

AUTO HIGH-BEAM HEADLAMP CONTROL

Sensors eliminate the need to manually turn off high-beams when oncoming traffic approaches. New LED projector headlamps are available as an option.

MULTIFUNCTION STEERING WHEEL

Convenient control buttons are stationed perfectly, allowing for fingertip control of many vehicle functions. Safety operate features like cruise control, audio, voice command and the instrument-cluster menu.

60/40 SPLIT-FOLDING REAR SEAT

Configure your interior to fit your needs - each section folds separately to create a customized space, including a large rear cargo area that offers up to 1,303 L (SAE cargo volume*) of space with the rear seat folded down.
